About MDPI

MDPI, the Multidisciplinary Digital Publishing Institute, is an academic open access publisher, established in 1996. We publish over 170 peer-reviewed open access journals across ten different fields and offer publishing-related initiatives to scholars. In total, 95% of papers published in 2016 are available in Web of Science.

What MDPI Stands For

As a member of COPE (Committee on Publication Ethics), STM (International Association of Scientific, Technical, and Medical Publishers) and OASPA (Open Access Scholarly Publication Association), MDPI enforces rigorous peer-review and adheres to strict ethical policies and standards.

With 20 years of experience publishing in open access, we strive to serve the academic community. We maintain a rapid publication service and accepted articles are published online in 7-10 days. Our in-house copy-editing team finalizes accepted articles and we deliver all content to e-Helvetica, a digital collection of the Swiss National Library and CLOCKSS.

Aims and Scope

Our aim is to promote scientific exchange worldwide by publishing online journals of high scientific standard and impact.

Author Benefits

Open Access – No Copyright Constraints
Authors retain copyright of their work while readers can freely access all articles.

Rapid Publication
A first decision is provided in under 32 days; once accepted, papers are published in 7–10 days (median values for all papers published in 2016).

Excellent Service
99% of our authors would publish in MDPI journals again*.
* Source: survey of corresponding authors of MDPI journals, Q3–Q4, 2016.

High Number of Readers and Frequent Citations
Of the content published in 2016, 88% is indexed by Web of Science, Clarivate Analytics (formerly Thomson Reuters). MDPI registered an average of 9.4 million page views and article downloads per month. In 2016, MDPI articles received 183,000 citations.

MDPI Is a Member of CrossRef, OASPA, STM, COPE and DOAJ
MDPI collaborates with over 190 institutions, universities and societies. We archive a full-text copy of all our papers in e-Helvetica, the digital collection of the Swiss National Library and CLOCKSS.

Our Multidisciplinary Services to Disseminate Research

Sciforum
A platform for academic communication and collaboration where scholars can set up free scientific conferences or participate in discussion groups.

Preprints
A multidisciplinary not-for-profit platform for rapid communication of research results before peer-review.

JAMS
A complete manuscript submission system that incorporates all steps from initial submission to publication, including peer-review. We also offer flexible administrative and production support to publishers and editors.
