About MDPI

MDPI is a publisher of fully peer-reviewed, open access journals with a focus on robust and rapid editorial processes. Our aim is to ensure that high quality research is verified and made available to the research community as quickly as possible. MDPI stands at the forefront of the open access movement, launching its first online journal Molecules in 1996. Today, MDPI is a leader in open access publishing with over 200 journals across all research disciplines and all content published under a Creative Commons Attribution License (CC BY).

Our Multidisciplinary Services to Disseminate Research

A platform for academic communication and collaboration where scholars can set up free scientific conferences or participate in discussion groups.

Preprints

A multidisciplinary not-for-profit platform for rapid communication of research results before peer-review.

MDPI is a Member of CrossRef, OASPA, STM, COPE and DOAJ

MDPI collaborates with over 400 institutions, universities and societies. We archive a full-text copy of all our papers in e-Helvetica, the digital collection of the Swiss National Library and CLOCKSS.

Preprints

A complete manuscript submission system that incorporates all steps from initial submission to publication, including peer-review and invoicing. We also offer flexible administrative and production support to publishers and editors.

Missions and Values

Open Access – No Copyright Constraints

We offer access to science and the latest research to readers for free. All of our content is published in open access and distributed under a Creative Commons License, which means published articles can be freely shared and the content re-used, upon proper attribution.

Timeliness and Efficiency

We aim to publish fast to ensure the latest research is rapidly disseminated, using thorough, precise editorial work. By assisting editors and reviewers all along the peer-review process, a first decision is provided to authors in under 26 days; once accepted, papers are published in 6 days.

Excellent Service

A survey revealed that 99% of our authors would publish in MDPI journals again.*

* Source: survey of corresponding authors of MDPI journals, 2017.

High Number of Readers and Frequent Citations

Of the content published in 2017, 96% is indexed by Web of Science, Clarivate Analytics (formerly Thomson Reuters). MDPI registered an average of 14 million page views and article downloads per month. In 2017, MDPI articles received 257,291 citations.
